"[t] he only thing necessary for the triumph of evil is for good men to do nothing."

-Edmund Burke

This year started with a ton of hope on my part and that all changed on January 9<sup>th</sup> when my wife passed away. It has been an extremely difficult past couple of weeks, but two things have sustained me. My Lord and Savior along with my family as well as

the hundreds of well wishes & condolences from my NCOA family

got me through. Thank you!

I began this year with great optimism. Mike Little has become our new Chief Advocacy Officer and he has hit the ground running. In his first week, he hired 20 college interns to assist with legislative functions, upgrading our national website and applying for grants for the association. On top of that he has shared his experience in the technical realm and saved the association literally thousands of dollars.

I have been struggling with what I should say in this issue that would give each of you some positive perspective. I may not know many of you by name or face, but I know your heart based on my recent

loss. I am confident that with the members that currently exist, there are a lot of leaders and definitely a lot of caring people out there.

With a change in government it brings up a lot of uncertainty. What I do know is that the real backbone of our military is the Non Commissioned and Petty Officer Corps; the 80% that executes the mission. I am blessed to be part of that group. There is a saying, "when the going gets tough, the tough get going." That is you and I. We have the option to receive the COVID-19 vaccine which should help get life back to normal. There are some who are concerned about the vaccine and that's OK. We just need to get back to some semblance of a normal life and whatever we need to do to accomplish that mission; we will find a way to get it done.

NCOA is in good hands and with so many good members out there, we cannot fail. I hope to see all of you in San Antonio in July. I also urge you to get one of those new challenge coins from HQ. They are even more impressive in reality than the pictures can share. Who knows, someone may ask to see your coin the next time that we meet.

If you have any ideas or suggestions, either contact headquarters or contact me at <a href="retiredveteran89@outlook.com">retiredveteran89@outlook.com</a> and I can assure you that your leadership will take note.

Strength in Unity & Leadership by Example,

#### **NCOA** Priorities for 2021

#1 will be since a law was passed to rename military bases that were previously named after Confederate Generals will be to get at least one base named after an enlisted hero.

#2 will be to change federal statute that prevents Gold Star Spouses from getting married at the age of 55. A recent poll done by Rand Corporation showed that 99.9% of service members who are married when they deploy do want their spouses to move on in the unlikely event of their death in combat & would not want them living in mourning. They indicated that when they signed their SGLI & next of kin paperwork to their spouse, they meant that to be indefinite regardless of their spouse remarrying.

**#3** will be to address the burial changes at

Arlington National Cemetery. Arlington is scheduled to reach max capacity by 2034. The criteria for Arlington are too lax & it would be unconscionable if a Medal of Honor winner were denied due to lack of space. We believe Arlington should be designated for individuals who have been awarded a Medal of Valor. We oppose a proposal from some organizations to reserve Arlington for officers only & will oppose this going forward..

the animals will

grow dependent on handouts and will not learn to take care of themselves. This ends today's lesson.

### Prevention Corner: Tips and Tactics to Avoid Scams

February 2021

#### Don't fall for the following common online scams

#### 1. Weaponized Documents:

These scams involve legitimate-looking web pages that ask users to download a document such as a monthly statement, an invoice or policy terms. The document downloaded may look legitimate, but would actually be "weaponized", and upon being opened it would attempt to install malware on the user's computer.

#### 2. Ads Collecting User Data:

Scammers can insert unwanted software in banner ads, sometimes on legitimate web pages, tricking the user into clicking something that looks like an enticing product or service. Once the user clicks through, malware could be installed on their computer and/or sensitive information could be stolen.

#### 3. Phishing Scams:

An email is sent that claims an attachment is too large or confidential to send over email. Clicking on the link in the email opens a fake online cloud storage site with a page that looks real and appears to be secure. Any information or credentials the user enters are immediately compromised.

Don't try spotting or tackling scams on your own.

#### **Thought to Consider:**

Have you gotten knocked down today? You have 2 choices. Stay down and lose or get back up and move forward in life.

If you have a spouse or 18+year old dependent that supports you and what NCOA does, sign them up in the Auxiliary. It will only cost you \$15 for 1 year if you send the application back through the chapter so that we can make up the difference. Need an application, contact the Chairman.

Do you have an interesting military story or joke? Consider sharing it in writing (in 150-250 words) for possible publication in our next newsletter. Send your text and/or picture (keep it rated PG-13) to rogue.newsletter@gmail.com
